“ Amy reached out to us when our family had recently arrived down the street, completely new to this part of the country. She was so warm and welcoming that it made us feel as though this really could become our home. I knew nothing about Hadassah, but Amy made sure to change that, convincing me of the value of the work they do. When she was the local Hadassah chapter president, what could I do but become a Life Member to honor this wonderful woman? I will always remember Amy's kindness. Her memory is a blessing.
