“ Jerry, my condolences on the passing of your mom. I came across her obituary on Weil's website. Our parents were good friends and we often came over to your house in the summer for a cook-out and to cool off in your swimming pool. That was 60-some years ago. I hope you're healthy and doing well.

“ Jerry, my condolences from the Hymie Hiudt family. We have many great memories at your house. That your father and our father go back to the start of Klien motors. The golf clubs I made for you, are all great memories. Now your mother will be united with Sammy and Linda.. Take care and enjoy what we had and what we have.
