“ Our family was very much indebted to Bonnie Silverstein , aka Aunt Bonnie to our children. We spent numerous holiday celebrations at Bonnie and Ben’s home filled with joy and fun times. She never forgot a birthday of our 4 family members and our grandchildren over many years.

Her entertaining included outstanding , original table settings, centerpieces and designs.

Bonnie’s avocation was tablesettings for homes and her synagogue, the former O’hav Shalom where she had many friends and did years volunteering for events, with a specialty of you know what: TABLE SETTINGS ! She was like an architect of tables and was frequently thinking of the table design of her next table. In addition , she was a fine representative of her home state of origin (Indiana) for serving fresh , special Indiana vegetable dishes !

Our family would kid Bonnie that she should have been a nurse in her life. She was the ultimate “volunteer” nurse .She was so willing to assist others and to put herself last , expecting nothing in return, shying away from tributes.

Bonnie , in later life, became proficient at making original greeting cards, creating beautiful puzzles, and expertise in word jumbles and break-the-code puzzles from newspapers.

Bonnie , we love and miss you!

Love,

Bill & Marlene Schwartz
