“ Bruce was my friend. Although we only met each other a few times we maintained a friendship through text and Facebook. Bruce was a very bright man with an excellent sense of humor. He was like the brother I never had....the world has lost a great person. I am so sad and so sorry.

“ I am not sure where to begin with this, Dr. Seigel was such a caring human being! I can attest to his funny sense of humor. Every visit he had a new joke or a funny meme to share. He was a wonderful doctor and was willing to find ways to help and if he couldn't then he would do his research and get back with me on my next visit. It's not often that you can find a doctor with every quality that you look for but he definitely checked all the boxes. I thank him for the many years of being my doctor and friend when he knew I needed one. I have missed his compassionate ways the past two years and will always remember what a wonderful human being he was. Christine we never met but he sure talked about you and both of your love for dancing. Truly sorry for your loss He also spoke highly of his boys and how he couldn't have ran the office without his right hand person Julie. To you all I pray you find comfort in knowing how blessed you were to have him in your lives, he will be missed greatly!
