“ This is a true story about Diane. In 1985, I was working at the Ohio Attorney General and looking for a change, so I talked to my uncle Bernard Horn for advice. He told me to go to Jewish Vocational Service and talk to Diane Goodman, because "you never know how far the Jewish tentacles will reach". In my case they reached all the way to Osaka, Japan when Diane helped me (to say the least) land a job at Fujitec America, a Japanese elevator company located in Lebanon, Ohio. It was the best job of my life!! Thank you Diane for reaching your tentacles on my behalf. You really were a good and great person. Matt Rosen

“ *"Lady Di" was like a second mother to me (and many of Richard's friends). She was always nice, non judgemental, and just firm enough. I will miss her.*
