“ *First I met Ilya at the conference in a village Melekino near the city of Mariupol. At that time his great father was alive. Later on I visited Donetsk several times as a member of Research Council at the Institute of Applied Math. Once Ilya invited me to his home. We discussed our research. I guess he was preparing to emigrate. He gifted me a nice Math book from the series "Math Education" (in Russian). Ilya was very kind to me. He was a smart and nice person. - Prof. Alexander Kukush (Kyiv, Institute of Math NAS of Ukraine).*

“ *Dr Gikhman was a great professor and took the time to meet with freshman students to discuss their progress. I realize this many years later that he was genuinely a great guy.*
