“ I worked with Joyce 40 years ago; I never knew anybody who could work like her... also I never have had a better friend !!

Mary Ann, I went to Crowley's last night for the first time and no one there knew anything about you, so I searched the internet and was sad to learn that Joyce had passed. I loved her love of animals, and fondly remember her lion and precious guinea pigs. RIP dear Joyce.

“ Sorry to hear about Joyce's passing. My late wife Marian and Joyce worked together in the same department at CG& E and we used to go out with Joyce and Arnie. There was something magic about Joyce that caused me and many others to actually laugh at the mention of her name. She was special, always smiling and you never knew what she was going to do next. God destroyed the mold when he made her as there will only be one Joyce. To her family, she had to be special. I can't believe what it was like to be around her at all times. I know she made me smile just to be near her. Now, I can just see her and Marian carrying on in heaven as they did here on earth. She will be missed. I know I will miss her.

“ To the family of Joyce Applebaum,

I am so sorry to hear of her passing. Joyce was my first supervisor at CG&E and she will always be remembered. She helped me to grow and to learn how to work so that I could be better during my years at CG&E.

May God bless you all during this time of lost.
