“ Farewell, Leo!

*Great memories from Knoxville, University of Tennessee, back to 1958. Great taskmaster and teacher you were for a young sprout such as myself entering your class.*

*How often we would encounter one another, you, the man with a camera! All over the place. Even once in the Smoky Mountains hiking the trails you enjoyed so much.*

*Then our paths crossed again here in Cincinnati, University of Cincinnati. You enjoyed parsing a line of Latin as much as a philosophical argument. I learned much from you, Leo.*

*Farewell.*
