“ As I was getting ready to mail Margie's birthday card, I learned she passed away in February. My heart is saddened, that I will no longer be able to speak with her. However, my heart is glad that she is safely home in Heaven...free from pain she endured in her earthly life. From the moment we met at Maple Knoll we became friends and she would always say, this is the "other Margie". She was a special person and her memory was amazing! She always remembered to ask about any family or friends that we discussed in our previous conversations. My dear friend, I pray you have pink angel wings and will watch over all of those who knew and loved you. 💖 Margie Krebs

“ Marjorie 'Margie' as her friends at Maple Knoll Village called her, will be greatly missed. I had the opportunity to meet Margie when she moved into Maple Knoll, she never forgot a name or birthdate or your age. She would always remind you a few days before that you had a birthday or anniversary coming up. She will be greatly missed by the staff and her neighbors at Maple Knoll.

“*Marjorie was the most game person I've ever known. We shared the fourth, fifth, and sixth grades. She took a lot of abuse from classmates about her medical condition. Her response was always a smile accompanied by, “You shouldn't say that kind of thing; I have a medical condition.” I think it was fifth grade when Marjorie was called out of the classroom on a pretext, and our art teacher, Edna Keller, made it clear to the class that there was to be more teasing. There never was after that. Over the years, when I have a tough day, I think of what Marjorie endured and how she kept her smile and bounced right back. I learned a life lesson from her. Thank you, Marjorie, and thank you, Edna Keller. Steve Warm*

“*Marjorie Ruth Schaal was a lovely lady. I knew her as we both worked at Children's Hospital on Burnet Avenue. I was her supervisor for eleven of her twenty years of employment at CHMC. She did meticulous work that benefited the children of our community. She was dearly loved by her parents, Charles & Lilli, who immigrated to the U.S. from Germany just before World War II. Margie did not have children of her own, but she always knew her friends' children names, birthdays, & shared in their lives by asking about them. Margie was very intelligent and knew all the best selling books because she had read them. Despite her medical issues, she NEVER complained and "carried on". Even these last few days of her life at Jewish Hospital, the nurses all called her a "sweet lady" and tried their very best to comfort her. I am proud to call you my dear friend, Margie. May Adonai bless you with peace. Love, Terri Snavelly*
