“ Peter, I met you at a fair. We became fast strong friends. When you shared that you were going to FL to study clowning and Ruthie face painting. I encouraged you to marry her back when she was a meat cutter. I knew she was madly in love with you and would make a wonderful wife. I am grateful you did and had a wonderful life together. Ty for all the emotional support you gave me over the years. Love and prayers to Ruthie as she continues on.
