“ I met Sue when I sat next to her at the CSO the year her husband passed away. She and I had a connection and I looked forward to seeing her whenever I attended a performance. We had some lovely chats and I admired her so. Through her I met her grandsons Joey and Chris and was fortunate to have made purchases from their candy store in Clifton (although I enjoyed their flavored popcorn most!)
I will miss her smiling face but know she is in a fine place reunited once more with Bill.
